Donald,

Thanks for the letters.

I got a letter from Robert Kelly yesterday too. I'm going to send him an email sometime this week.

I hope you get better soon. Anchorage has great heart doctors. My mom went to a hospital there in 2017 when she had congestive heart failure. She was there for two weeks and they saved her life. They put a pacemaker in last year, and helped an aunt of mine too.

I'm going to keep this letter short, and send a longer one later this week.

I have found information that Albert H. Ruble (1944-2018) had been a special agent with the Coast Guard Investigative Service before becoming a private investigator. In 1980 as a CGIS special agent, he worked alongside KPD during a cocaine investigation. Ruble and an unnamed KPD officer used hearsay evidence to indict a suspect, and it was possibly thrown out later. I'm going to look into that more.

Did Mike ever say why he thinks that his dad was involved in Laura's disappearance? I'm going to ask true-crime writer Robin Borefield if JM's daughter ever explained the reasons why she believes it too.

You're in prison for Laura's disappearance, and the kids of the drug dealer who told a bunch of people that he killed Laura think he did ~~to~~ it! I've watched hundreds of episodes of true-crime TV shows and documentaries, I've never heard of a case as strange as yours.

I'm going to email some information to Robert Kelly this week. His email address was on the letter I got from him. I would like to also get Mark Evans email address so I can send him everything too.

You can relay the information I send you to anyone you think can help.

Sincerely,  
Chiff Anderson
